

**NORTH WEST
CONCRETE**
PRODUCTS & PAVERS

Making a real difference in the North West

Our catalogue of stylish paver designs suit both residential and commercial environments. The range includes plain pavers for footpaths, large format paving for modern patio and drive design, coloured stepping stones, tree kerbing, and even drains. Different textures and sizes are available across a range of 7 colours to create individual design statements; Grey, Charcoal, Earth Brown, Terracotta, and three shades of Cream.

We also produce Limestone blocks and retaining fences for backyards and subdivision, which can also be used to make backyard barbecues.

We provide real value with constant and reliable production in a region of Australia traditionally poorly serviced.

Pavers can be picked up from our yard in Broome, or can be delivered to locations throughout WA.

As division of Concrete Logistics, a Quality Endorsed Company* with years of market-leading experience, we have the backing and the resources to make a real difference in the North West.
